PROFESSIONAL SUMMARY

Results-driven MCA student at **Pondicherry University** with a core strength in **SQL and Data Analysis**, complemented by hands-on experience in Python and web development. Currently serving as **Placement Coordinator** for the MCA department, demonstrating leadership and organizational abilities alongside strong academic commitments. Built practical projects including a **Book Store Management System** and a **Python-based Snake Game**, reflecting a consistent drive to apply programming concepts to real-world problems. Seeking a research internship at **IIIT Delhi** to contribute meaningfully to ongoing research initiatives while deepening expertise in data-driven problem solving and computational applications.

EDUCATION

Master of Computer Applications (MCA) — Pursuing

2024 – Present

Pondicherry University, Puducherry

- Current CGPA: **7.28 / 10.0** (1st Semester)
- Relevant Coursework: Data Structures & Algorithms, DBMS, Software Engineering, Operating Systems

Bachelor of Computer Applications (BCA)

Graduated: 2024

GNIOT Institute of Professional Studies, Greater Noida

- CGPA: **7.0 / 10.0**
- Relevant Coursework: Programming in C/C++, Web Technologies, Computer Networks, Data Structures

TECHNICAL SKILLS

Programming Languages: Python, SQL, JavaScript

Web Technologies: HTML5, CSS3, JavaScript (Beginner–Intermediate)

Data & Analytics: Microsoft Excel (Pivot Tables, Charts, Data Analysis), SQL Query Optimization

AI & Emerging Tools: Generative AI Tools (ChatGPT, Gemini, Copilot), Prompt Engineering

Developer Tools: Git & GitHub, VS Code, Jupyter Notebook

PROJECTS

Personal Portfolio Website

2024

HTML5 | CSS3 | JavaScript

- Designed and developed a fully responsive personal portfolio website to showcase academic projects and technical skills using HTML5, CSS3, and JavaScript.
- Implemented mobile-first layout, clean UI/UX principles, and cross-browser compatibility for a polished web presence.

Book Store Management System

2024

Python | SQL | File Handling

- Built a console-based Book Store Management System in Python with add, search, update, and delete functionalities for book records using OOP principles.
- Utilized SQL and file handling for persistent data storage, ensuring modular and maintainable code architecture.

Snake Game

2024

Python | Pygame / Turtle

- Developed a fully functional Snake Game in Python implementing real-time keyboard controls, collision detection, score tracking, and dynamic speed progression.
- Demonstrated proficiency in event-driven programming and game loop architecture through hands-on application development.

RESEARCH INTERESTS

Artificial Intelligence | Machine Learning | Natural Language Processing | Data Science |
Generative AI

ADDITIONAL INFORMATION

- Actively developing programming and analytical skills through self-directed learning, including online courses in Python for Data Science and AI fundamentals.
- Familiar with leveraging Generative AI tools to enhance research workflows, code debugging, and rapid prototyping.
- Strong written and verbal communication skills; able to collaborate effectively in team and interdisciplinary research environments.
- Eager to contribute to research projects at IIIT Delhi, particularly in AI, data analytics, and intelligent systems.

I hereby declare that the information provided above is true and correct to the best of my knowledge.
